Hi, I'm

Kiran Sree B

Software Engineer & Full-Stack Developer

I build full-stack web applications, secure REST APIs and automated data pipelines — deployed on AWS and Docker, backed by well-tuned databases.

01 / About

Engineering meets business systems

Computer Science and Business Systems graduate specializing in full-stack development, cloud infrastructure and automated data pipelines. I focus on bridging solid software engineering with scalable business systems — secure APIs, reliable deployments and fast databases.

B.Tech, Computer Science and Business Systems
Sri Sairam Engineering College
June 2026 CGPA 8.6 / 10

03 / Experience

Where I've worked

Full Stack Developer Intern @ Virtual Tech Services

Jun 2025 – Aug 2025 · Chennai, India

- Engineered secure Node.js and Java RESTful APIs.
- Built automated data pipelines that increased processing speed by 25%.
- Presented analytics dashboards to stakeholders.

Systems & Infrastructure Intern @ Revamp Academy

Mar 2025 – Apr 2025 · Chennai, India

- Deployed full-stack application instances on Linux, AWS and Docker.
- Administered PostgreSQL and MongoDB databases.
- Configured CI/CD automation for release workflows.

04 / Projects

Selected work

-20% batch runtime

Enterprise Workflow Engine & Automated Data Platform

Java/Python REST APIs with multi-tiered components containerized on AWS via Docker, plus PostgreSQL index optimization.

#Java #Python #AWS #Docker #PostgreSQL

Full regression coverage

High-Throughput Developer Tooling & Web System

Modular web system that parses and displays statistical metrics, backed by comprehensive Python unit and regression test suites.

#Python #JavaScript #Unit Testing #Regression Testing

05 / Recognition

Certifications & Achievements

IEEE Research Publication
Published research paper with IEEE.

Approved Patent
Co-inventor on an approved patent.

Paper Presentation Wins
Winner at technical paper presentation events.

LeetCode 200+ Badges
Competitive programming milestones.

Certifications
Accenture, NPTEL, Cisco and IIT.
